Washington, DC 20016

Dear Mr. MacFarlane:

SUBJECT: YOUR FREEDOM OF INFORMATION ACT REQUEST; FOIA CASE NUMBER  
DON 2014F000380/NAVSEA 2014F000034

This is in reference to your Freedom of Information Act (FOIA) request dated December 11, 2013. Your request was received in our office on December 20, 2013.

We have determined that the information you are seeking may be maintained by the Commander, Naval Sea Systems Command (NAVSEA) located at 1333 Isaac Hull Avenue SE, Washington Navy Yard, DC 20376. Therefore, we have forwarded your request to that office for action and direct response to you.

Questions regarding the action this office has taken during the initial processing of your request may be directed to our FOIA service center at (202) 685-0412. For questions regarding the current status of your request, please contact a FOIA Coordinator at NAVSEA directly at (202) 781-2437. When contacting NAVSEA, please reference case number NAVSEA 2014F000034.

Sincerely,  
Robin Patterson  
Head, DON FOIA/PA Program Office

Subject: Media FOIA request

From:

Scott MacFarlane (News Media - WRC-TV)

NBC Washington

4001 Nebraska Avenue

Washington, DC 20016

202-507-1129

Pursuant to public records rules and the federal Freedom Of Information Act, 5 USC 552, and the Privacy Act of 1974, 5 USC 552a, I hereby request copies of the following documents.

If for any reason you chose not to send me any of the documents or papers requested then please furnish me with a timely explanation.

I am requesting:

Copies of all photos in NAVSEA possession of the interior of Building 197 at NAVSEA HQ in DC.. from calendar years 2011, 2012 or 2013 that are \*NOT\* part of the investigation into a shooting inside said building on 9/16/13.

In the event that some of the material is considered by you to be exempt from disclosure under both Acts, then please include all segregable portions of documents and the specific exemption you are relying upon to deny disclosure of the excised portions. Please note that in order to avoid disclosure you must claim an appropriate exemption under both Acts.

I am requesting that you abide by the statutory time within which to make a determination on this request, that being twenty (20) working days from your receipt under Section 552(a) (6)(A)(i).

I also request that, if appropriate, fees be waived as I believe this request is in the public interest and I am a member of the news media.

If rejected, I'm willing to pay any and all fees involved in the processing of this request, up to a limit of \$15.

I hereby request you inform me of any charges \*in advance of fulfilling my request.\* I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not

If only some of the information/materials requested is readily available, please forward said information immediately - then complete request upon receipt of further information/materials.

A compelling need exists to warrant expedited processing of this request, because a large number of our viewers are immediately impacted by the content of these records. These records relate directly to performance of government in matters of safety, health and well-being. These records also pertain to issues involving widespread media reporting in recent months. Delayed processing jeopardizes important, timely dissemination of information to the public.

Please provide records in electronic format.

Please feel free to contact me with any questions or concerns.

**Subject:** FOIA requests non-9/16/13 specific  
**Date:** Thursday, January 02, 2014 15:12:11

---

Donna,

Reviewed the NAVSEA cases and determined that all but one will be transferred back to your office for processing, (only one is specific enough to the event), as follows:

DON 2014F-0378 (NBC Washington): Advise that you contact the NAVSEA security office and ask the following questions: 1. Do they have an indexed video library (i.e. training videos). 2. Can they determine if any videos were specifically "NAVSEA produced"? This is "not" a request for daily security footage or tapes.... and I would not consider this request specific to the NAVSEA incident.

DON FOIA 2014F-0380: I think the appropriate response is " cameras are prohibited from the premises, with the exception of "official photos" of specific events and assemblies, or ceremonies, such as retirements..... Public Affairs is the only authorized place to get a camera for official use. I don't think the Public Affairs office has an official "photo library" and there may not be a requirement to have one ... So if no "photo library exists" and photos are used for specific articles, publications, or events and then routinely destroyed ... or some photos may be kept in specific "subject/topic" or "by date" folders, that system of records would have a disposition requirement. This request is too broad to tie to the specific event. If you discover that there is a "photo library", I would recommend negotiating with the requester, or explain that the library does not contain a subject "interior of building 197" and there is no way of Identifying "all photos that were taken in the "interior of building 197".... after you get more record keeping info from Public Affairs, (b) (6) can help with crafting the language for "fishing expedition", or request to broad.

Case DON 2014F-0383: the memos are all serialized and in the individual offices -official systems of records. Recommend that you provide the requester with an estimate, as I can see the search and review, possible redactions, will be very costly. This may encourage the requester to "narrow the scope". Again another "fish expedition" - just because they are media doesn't mean that the memos would shed light on specific government activities.

DON2014F-0387: this one is specific enough that we may be able to deny. However, I want to talk with the FBI, as they may have "all emails during that time, in their possession."

I'm scheduled for leave starting tomorrow - and should be back on the 13th. If you have any questions or concerns contact Matt, and he will get ahold of me, if necessary. Please send an acknowledgement for all requests and follow up on the 10 day extension letters. Some of the requesters have already filed appeals - so the administrative files need to be kept up-to-date. Remember if you need our assistance at any point during the process, just let us know. Additionally, I would like to see the final response letters prior to release for each of these cases - as it may be necessary to notify DoD or other stakeholders.

Respectfully,

Robin Patterson

(b)(6)

I will reach out to DON CIO and EPA to determine where the CD should go.

DNS has previously voiced their concern over the migration to FOIA Online with NAVSEA Tool already meeting our needs and the timeline which does not allow any real "beta" testing to ensure the new tool meets DONs needs.

DON acknowledged our concerns and has decided to continue the migration. There is no further discussion for DNS at this point. We will execute the migration as directed.

I appreciate your support and patience with the process.

V/r,

**Subject:** RE: NAVSEA FOIA tracker - additional data requested

Robin,

I have the final submission of data from the NAVSEA Tracker system in the format requested by the EPA software engineers. I really have tried to avoid this incremental approach due to the labor cost to keep going back and forth. I asked Steve Muck on the 16th of December where and when I could deliver the final data dump but he offered a conference call in mid-January instead. So I'm confused a bit here. I would like to give you the CD of data and get out of the middle of this migration effort. This way DONCIO has it all and they can be responsible for its parsing, migration and validation.

Just to be clear, the incorporation of the functionality (I believe) being replicated into the EPA system has blown the cost estimates used to justify the decision. The development funds being expended are unfortunate. The worst part is that they aren't even close to asking all the right questions.

Robin, please confirm that you are willing to take possession of the FINAL deliverable on behalf of Mr Muck. Please give me a call or email when you get a minute.

Subject: NAVSEA FOIA tracker - additional data requested

Importance: High

(b)(6)

I am respectfully requesting the data in the "Program Costs" tab, be reported in a spreadsheet, to turn over to DON CIO and the EPA team prior to next Thursday 1/9/14. This report tab lacks the ability to print or download to excel on the user end. It also doesn't have the "all or all broke out" option in the drop down.

Specifically requesting each agencies data entry for FY12 and FY13.

Broke out by Site name, then individuals per site. This information is required for the FOIA Annual Report, Section IX, page 7.

I will be out of the office tomorrow, and turning this action item over to (b) (6)

However, I should be available by cell phone after 1pm and will have access to my personal email, as follows. Cell (b)(6)

Additionally, I am scheduled to be out of the office next week - in a final attempt to use some leave and gets some R&R!

Respectfully,

Robin Patterson

Head, DON FOIA/PA Program Office (DNS-36).

**To:** M\_WNYD\_HQ\_NAVSEA All Hands  
**Subject:** Fire Alarm in NAVSEA West  
**Signed By:** thomas.j.kearney@navy.mil

All,

A few minutes ago we had a fire alarm in the NAVSEA West Bldg due to a room heater on the 4th deck emitting smoke. It was quickly identified and secured by (b)(6) in IWS before it could catch fire, but there was a lot of smoke and the building was evacuated. Following the Fire Dept response, the "all clear" was given to reenter the building. Good job to (b)(6) on taking appropriate actions, and good job to all on a very orderly evacuation of the building (including borrowing coats from the donation box). I think it was about 10 minutes for people to be outside, but I know it seemed longer with today's cold temperatures. Again good job to all on handling the issue.

V/R

**Subject:** ALL HANDS NOTE (1/7/14) : Fire Alarm in NAVSEA West  
**Attachments:** NAVSEA West evacuation procedures.pdf  
**Signed By:** patricia.dolan@navy.mil

All;

RDML Kearney asked me to clarify that the room heater that was emitting smoke was not a Space heater, but a installed room Heater.

Additionally, he asked me to provide employees with the Evacuation procedures and where each floor is to muster. All of NAVSEA will muster in (b)(7)(F), (b)(7)(E), (b)(2) with the rest of your floor. A map is included to show you specifically where to muster your floor.

If you notice a fire or see smoke, pull the nearest fire alarm and dial 99-911 and provide the below information.

Address: 2100 2nd St, SW  
Nearest cross street: V Street  
Floor #:  
Room #:

We will post these evacuation procedures by each stairwell and by the elevators on each floor.

VR/Pat

Subject: Fire Alarm in NAVSEA West

All,

A few minutes ago we had a fire alarm in the NAVSEA West Bldg due to a room heater on the 4th deck emitting smoke. It was quickly identified and secured by (b)(6) in IWS before it could catch fire, but there was a lot of smoke and the building was evacuated. Following the Fire Dept response, the "all clear" was given to reenter the building. Good job to (b)(6) on taking appropriate actions, and good job to all on a very orderly evacuation of the building (including borrowing coats from the donation box). I think it was about 10 minutes for people to be outside, but I know it seemed longer with today's cold temperatures. Again good job to all on handling the issue.

V/R

Here is a little more background on this FOIA request for everyone's consideration.

I am the one on the hook to respond to the request from CNSF and would like to respond to move the action towards the appropriate POC. Please advise.

(b)(6)

Attachment sent as requested. We have looked more closely at pulling this data. If we only pull the Initial CASREPs it will required about 3.5 man months, at a rough cost of \$75K.

(b)(6)

The key question is who can authorize the downgrade and release of the requested information? Is it USFFC?

Can you direct PMW-150 to produce the required information? Of course the data is classified which further compounds the ability to respond - it would have to be downgraded from at least CONFIDENTIAL. A set of UNCLASSIFIED OARS data by JSN might be an equivalent response. NSWC Corona might be able to help assemble the information once authorization is provided to downgrade and release the data.

(b)(6)

As discussed yesterday, request your assistance in putting me in contact with correct POC to discuss which Navy command possesses all GTG-related CASREPs for DDG 51-72 going back to commissioning of each vessel. There has been a request under the Freedom of Information Act (FOIA) for this information. SURFLANT is not, to my knowledge, the owner/holder of the data even for East Coast subset of DDG 51-72. I understand from (b)(6) that OPNAV or NAVSEA would likely control the data being sought.

Thanks for helping identify the right stakeholder to answer this FOIA request. We need to get the formal request in the right hands.

(b)(6)

Based on the fact that this letter is requesting all data available within the DoN, I would recommend that this be forwarded to OPNAV PAO or NAVSEA PAO for adjudication. We would only have records of LANTFLT ships and would need to seek NAVSEA or OPNAV approval to release info anyway, I suspect.

(b)(6)

Attached is the FOIA request we received for what appears to be a huge trove of GTG CASREP data for DDGs 51-72. I understand that NAVSEA owns these records and may be the better command to answer this FOIA request due to their visibility over ships from both coasts and CASREPs in general.

To successfully redirect this FOIA request to NAVSEA, I would benefit from any brief statement of fact from you that convincingly conveys that the requested CASREP records are held by NAVSEA. Can you assist? Thanks, (b)(6)

This is a follow-up from the voice mail that I just left you. Please see the email below.

I spoke with Robin this morning. Can you locate the photo's in a library? You need to speak with Pat in Public Affairs as soon as possible since Donna is out of the office and get as much facts as you can regarding Scott MacFarlane's @ NBC FOIA request.

NAVSEA needs to start the process on his FOIA request now if you have not already done so.

Steve Muck @ DONCIO has been aware of the fact that the attached internal email(s) was sent in error to Mr. MacFarlane along with NAVSEA's referral letter vs. our response to the requester.

I spoke with (b) (6) @ DoD and have emailed her this email and a recent follow-up one from Mr. MacFarlane for assistance on damage control and DoD's recommendations. Will forward second email shortly.

Please give me a call at 202-685-6530 and we can discuss.

Most Respectfully,

Phyllis

Robin:

I just tried to call. When you get a chance I would like to discuss this incident with you. I Just got off of the phone with Scott MacFarlane @ NBC. He is not happy with the attached document(s) that was forwarded to him via email. Matt in error attached your internal email to Donna regarding the WNY incident and sent Mr. Macfarlane NAVSEA's referral letter vs. our response letter to him.

Mr. Macfarlane asked to speak to our FOIA Policy Officer. I provided him with Steve Muck's name and number. I called Steve and gave him a heads up regarding Mr. Macfarlane's concern regarding our comments about him being on a "fishing expedition" and that he believes this would make a great story for the news.

Matt just advised me that he received a follow-up email from Mr. Macfarlane in which I will forward to you shortly.

Talk with you soon.

Most Respectfully,

Phyllis

**Subject:** FOIA requests non-9/16/13 specific  
**Date:** Thursday, January 02, 2014 15:12:11

---

Donna,

Reviewed the NAVSEA cases and determined that all but one will be transferred back to your office for processing, (only one is specific enough to the event), as follows:

DON 2014F-0378 (NBC Washington): Advise that you contact the NAVSEA security office and ask the following questions: 1. Do they have an indexed video library (i.e. training videos). 2. Can they determine if any videos were specifically "NAVSEA produced"? This is "not" a request for daily security footage or tapes.... and I would not consider this request specific to the NAVSEA incident.

DON FOIA 2014F-0380: I think the appropriate response is " cameras are prohibited from the premises, with the exception of "official photos" of specific events and assemblies, or ceremonies, such as retirements..... Public Affairs is the only authorized place to get a camera for official use. I don't think the Public Affairs office has an official "photo library" and there may not be a requirement to have one ... So if no "photo library exists" and photos are used for specific articles, publications, or events and then routinely destroyed ... or some photos may be kept in specific "subject/topic" or "by date" folders, that system of records would have a disposition requirement. This request is too broad to tie to the specific event. If you discover that there is a "photo library", I would recommend negotiating with the requester, or explain that the library does not contain a subject "interior of building 197" and there is no way of Identifying "all photos that were taken in the "interior of building 197".... after you get more record keeping info from Public Affairs, (b) (6) can help with crafting the language for "fishing expedition", or request to broad.

Case DON 2014F-0383: the memos are all serialized and in the individual offices -official systems of records. Recommend that you provide the requester with an estimate, as I can see the search and review, possible redactions, will be very costly. This may encourage the requester to "narrow the scope". Again another "fish expedition" - just because they are media doesn't mean that the memos would shed light on specific government activities.

DON2014F-0387: this one is specific enough that we may be able to deny. However, I want to talk with the FBI, as they may have "all emails during that time, in their possession."

I'm scheduled for leave starting tomorrow - and should be back on the 13th. If you have any questions or concerns contact Matt, and he will get ahold of me, if necessary. Please send an acknowledgement for all requests and follow up on the 10 day extension letters. Some of the requesters have already filed appeals - so the administrative files need to be kept up-to-date. Remember if you need our assistance at any point during the process, just let us know. Additionally, I would like to see the final response letters prior to release for each of these cases - as it may be necessary to notify DoD or other stakeholders.

Respectfully,

Robin and Matt...

I have grave concerns to the following references to in the email you attached. (I've reattached it to this email)

- 1) "just because they are media doesn't mean that the memos would shed light on specific government activities"
- 2) "fish expeditions"

I intend to report this type of language and FOIA management to your superiors.  
And I have to wonder why you shared such a PDF attachment with me.

---

Donna,

Reviewed the NAVSEA cases and determined that all but one will be transferred back to your office for processing, (only one is specific enough to the event), as follows:

DON 2014F-0378 (NBC Washington): Advise that you contact the NAVSEA security office and ask the following questions: 1. Do they have an indexed video library (i.e. training videos). 2. Can they determine if any videos were specifically "NAVSEA produced"? This is "not" a request for daily security footage or tapes.... and I would not consider this request specific to the NAVSEA incident.

DON FOIA 2014F-0380: I think the appropriate response is " cameras are prohibited from the premises, with the exception of "official photos" of specific events and assemblies, or ceremonies, such as retirements..... Public Affairs is the only authorized place to get a camera for official use. I don't think the Public Affairs office has an official "photo library" and there may not be a requirement to have one ... So if no "photo library exists" and photos are used for specific articles, publications, or events and then routinely destroyed ... or some photos may be kept in specific "subject/topic" or "by date" folders, that system of records would have a disposition requirement. This request is too broad to tie to the specific event. If you discover that there is a "photo library", I would recommend negotiating with the requester, or explain that the library does not contain a subject "interior of building 197" and there is no way of Identifying "all photos that were taken in the "interior of building 197".... after you get more record keeping info from Public Affairs, (b) (6) can help with crafting the language for "fishing expedition", or request to broad.

Case DON 2014F-0383: the memos are all serialized and in the individual offices -official systems of records. Recommend that you provide the requester with an estimate, as I can see the search and review, possible redactions, will be very costly. This may encourage the requester to "narrow the scope". Again another "fish expedition" - just because they are media doesn't mean that the memos would shed light on specific government activities.

DON2014F-0387: this one is specific enough that we may be able to deny. However, I want to talk with the FBI, as they may have "all emails during that time, in their possession."

I'm scheduled for leave starting tomorrow - and should be back on the 13th. If you have any questions or concerns contact Matt, and he will get ahold of me, if necessary. Please send an acknowledgement for all requests and follow up on the 10 day extension letters. Some of the requesters have already filed appeals - so the administrative files need to be kept up-to-date. Remember if you need our assistance at any point during the process, just let us know. Additionally, I would like to see the final response letters prior to release for each of these cases - as it may be necessary to notify DoD or other stakeholders.

Respectfully,

Robin Patterson

Robin/Phyllis,

He posted this info this morning on his twitter feed.

<https://twitter.com/MacFarlaneNews/status/420581517941678080/photo/1>

Is this something we should be double checking before its sent out?

Is this inherently government work and requires a government agent review paper or electronic replies? Especially to news sources.

Interested to discuss this more when Robin is back in the shop.

(b)(6)

After NAVSEA completes its review of the four FOIAs from the NBC reporter, the intent is, and has been, to coordinate with the Task Force prior to any release.

I have copied Donna Hamlin and (b)(6) on this email. Donna is the FOIA Officer for NAVSEA, and (b)(6) is the attorney advising Donna on these FOIAs.

If you have any questions, please do not hesitate to contact Donna or (b)(6)

Thank you.

v/r,

(b)(6)

**Subject:** Clarification on FOIA

Robin:

If I might ask for your assistance. As the WNYRTF FOIA POC, just talked to Matt to ask him to send me the specific NBC FOIA requests from 20 Dec. In so doing, he explained that this was being worked directly with NAVSEA and that there was no intent to make the TF aware of these until much later in the process.

If I recall, we discussed this about 2 months ago, namely all FOIA requests related to the events of 16 Sep are considered "significant" and processed accordingly. While I understand that these specific requests were sent to NAVSEA, per SECNAV's appointing order, until formally disestablished, the WNYRTF is "to ensure proper coordination of....responses to FOIA requests". As such, if we can ask that WNYRTF be kept cognizant of all of these FOIAs as they are received, reviewed and processed, not just at the end of the process. Senior-level attention across DoN remains focused on the wide range of recovery/response efforts to 16 Sep.

Please let me know if you have any questions. Many thanks and V/R,

**Signed By:** (b)(6) @navy.mil

(b)(6) Appreciate it, with all FOIA requests related to events of 9/16 as "significant", just wanted to insure that all the procedural requirements of DoDD 5400.07 are met, and that the TF retains visibility as FOIA issues are being worked.
